November 22, 2007

Dear Mr. Waite,

I am writing to inform you of how excellent the presentation was on ATV/Snowmobile safety, presented by Mr. Wally Makowski, at our school. The information he shared was invaluable to our students, as many have both ATVs and Snowmobiles. His style of presenting kept the students, and adults, enthralled!

We are very fortunate that such a high quality program was offered to the students at Highbury School. Wally was able to actively present to, and manage, over 275 students in total.

We very much appreciate his effort and look forward to offering this program to our students again next year.

Yours truly,

*Lori Huchko*
